REPLY TO
ATTN OF: ERD:RHB:3874

SUBJECT: Minutes from April 29, 1991, OU3 RFI/RI Work Plan Status Meeting

TO: Frazer R. Lockhart
Director, Environmental Restoration Division

Attached for your information are the minutes of our April 29, 1991 OU3 Work Plan status meeting with EG&G and subcontractors IT Corporation, CH2M Hill, and RA Consultants. Our approach to the Work Plan was discussed and consolidated before EPA and CDH representatives arrived. We then presented our approach and rationale to the regulators and it was generally well received. The regulators gave us constructive criticism and guidance, especially with regard to the difficult topics of contaminants of concern and establishing the OU3 boundary.

Robert H. Birk
Environmental Restoration Division
